

The Principal has decided only to proceed with the interview process after receiving a cursive/script writing sample. For the Principal, the intent of requesting this writing sample is **not** about neatness of the sample. The reason for the request for a script/cursive writing sample is that script/cursive writing reveals important thinking patterns that either match or mismatch the job/position.

Sometimes, at first, there is a challenge for many people with the script/cursive writing sample request: "I remember myself questioning my ability to give a proper sample for analysis as I had not written in cursive/script for 15 years."

Never or rarely used cursive/script writing can still be an accurate insight to the great person you are. Regardless of your frequency of cursive/script writing, the time lapsed since use of script/cursive writing, etc.... the data collected is still valid. Even if one hasn't used script/cursive writing in 20 years, or writes with it daily, the underlying data is still useful and accurate.

Writing in script/cursive during the job is **not** part of the job duty. **But**, a sample is part of the application process.

Please write the following grammatically incorrect and illogical paragraph in script/cursive writing and fax your sample to: Attention Mr. Faust at 310.496.0912. Please be sure to print your name and print a phone number at the bottom of the sample. If you wish, you may print this page and use this as your template.

*This is an example of what cursive/script writing looks like.*

**"Today's youth is learning everything about cats, dogs, monkey's and purple people eaters. Do you know why? Oh, it doesn't matter just remember don't always think about the best feeling you ever had."**
